TONGUE DIAGNOSIS AND MINERAL BALANCING

The tongue is a vital, highly active and sensitive organ, which is the beginning and the only visible part of the digestive tract, it is sometimes called the mirror of the stomach. One of the first places that information can be obtained about the general health of the body is the tongue. Signs of imbalances in other body organs or tissues for example the skin, hair nails can only be detected after weeks or even months of imbalances, but with tongue diagnosis the imbalances can be detected in as little as twenty- four hours. Tongue diagnosis is fast, accurate, safe noninvasive and easy to learn.

After detecting and interpretation tongue of mineral shifts in the cells and the tissues, homeopathic biochemical minerals are administered to re-established balance in the cells and restore health. Learn this simple yet powerful diagnostic and mineral balancing technique in two days and add a new dimension to your practice

In this course, you will:

How to detect and interpret mineral shifts in the cells

How to use trace minerals (oligo or homeopathic) to re-establish balance in the cells and restore health

You will gain fundamental understanding of minerals as the core nutrients for optimal biochemical function.

You will receive appropriate clinical protocols for prescribing mineral medicines.

BONUS:

Zinc Challenge Test-measure of the zinc tissue levels

Saliva pH mineral challenge Test-Measures alkaline buffer response (sympathetic or

Parasympathetic nervous system: dominance clients to determine appropriate treatment or predict treatment outcomes)

Fee: \$800.00 (Doctors) includes HST,

\$350.00 includes HST Alternative Providers and Staffs

Date: May 11-12, 2017

Text: notes provided. Please call

Maximum Attendee: 30

Contact: Michele at Orthodont (866) 833-1033

Presenter:

Dame Dr. Sheila McKenzie,

RDH, PhD, IMD, DHMS, DHS

Since her entry in the healthcare field as a dental professional she has taken every effort to advance her profession into integrative medicine. In addition to her extensive academic credentials, in dental health care, homeopathy, orthomolecular nutrition and integrative medicine. She has held positions, including clinician, educator lecturer, researcher and humanitarian. She served as a Public Health Diplomat under the International Parliament for Safety Peace (2003-2013).

Dr. McKenzie has been a champion for the preservation of traditional and integrative medicine healthcare and humanitarian medicine. She is a global ambassador for healthcare reform for the National Coalition Party of Canada (NCPC). Dr. McKenzie is Dame Commander for Canada under the Sovereign Orthodox Order of Knights Hospitallers. She has been mentoring healthcare professionals in integrative medicine modalities and humanitarian medicine outreach since 2004. She is the head of the research supervisory team at the University of Humanitarian Medicine and is a UNESCO certified educator.
